

SECTION G.

RATES AND SERVICE FEES

Unless specifically defined in this Tariff, all fees, rates, and charges as stated shall be nonrefundable.

1. **Additional Assessments.** In the event any federal, state or local government imposes on the Corporation a “per meter” fee or an assessment based on a percent of water charges, this fee or assessment will be billed and collected as a “pass through” charge to the customer.
2. **Assessments.** If at the end of the fiscal year, or in the event of emergency repairs, the Board of Directors determines the total amount derived from the collection of water charges to be insufficient for the payment of all costs incident to the operation of the Corporation’s system during the year in which such charges are collected, the Board shall make and levy an assessment against each Member of the Corporation as the Board may determine or as may be required by Rural Development, so that the sum of such assessments and the amount collected from water and other charges is sufficient to fully pay all costs of the operation, maintenance, replacement and repayment on indebtedness for the year’s operations. (See [Article XVIII of USDA Model Bylaws, Section 1 Rev. 12-2011](#) or your Corporations bylaws or other governing documents)
3. **Customer History Report Fee.** A fee of \$5.00 shall be charged to provide a copy of the Member’s record of past account information in response to a Member’s request for such a record.
4. **Customer Service Inspection Fee.** A customer service inspection is required before continuous service is provided to new construction. The charge shall be the actual charge the licensed inspector to inspect the facility.
5. **Easement Fee.** When the Corporation determines that private right-of-way easements and/or facilities sites are necessary to provide service to the Applicant, the Applicant shall be required to make good faith efforts to secure easements in behalf of the Corporation and/or pay all costs incurred by the Corporation in validating, clearing, and retaining such right-of-way in addition to tap fees otherwise required pursuant to the provisions of this Tariff. The costs may include all legal fees and expenses necessary to attempt to secure such right-of-way and/or facilities sites on behalf of the Applicant. (See [Section E. 28.](#); [Section F. 8. b.](#))
6. **Equipment Damage Fee.**
 - a. If the Corporation’s facilities or equipment have been damaged by tampering, by-passing,

- installing unauthorized taps, reconnecting service without authority, or other service diversion, a fee shall be charged equal to the actual costs for all labor, material, and equipment necessary for repair, replacement, and other Corporation actions. This fee shall be charged and paid before service is re-established. If the Corporation's equipment has not been damaged, a fee equal to the actual costs for all labor, material, equipment, and other actions necessary to correct service diversions, unauthorized taps, or reconnection of service without authority shall be charged. All components of this fee will be itemized, and a statement shall be provided to the Member and tenant if an Alternate Billing Agreement is in place. If the Corporation's facilities or equipment have been damaged due to negligence or unauthorized use of the Corporation's equipment, right-of-way, or meter shut-off valve, or due to other acts for which the Corporation incurs losses or damages, the Member shall be liable for all labor and material charges incurred as a result of said acts or negligence.
- b. If the Corporation's facilities or equipment have been damaged in any respect due to excavation, digging, or any other activity that damages Corporation water lines and facilities, a fee shall be charged equal to the actual costs for all labor, water loss, materials and equipment necessary for repair or replacement of the Corporation's water lines and facilities.
7. **Equity Buy-In Fee.** In addition to the Membership Fee, each Applicant for new service that requires a new service tap shall be required to achieve parity with the contributions to the construction or acquisition of the Corporation's assets related to capacity that have been made previously by existing Members. This fee shall be assessed immediately prior to providing service on a per-service unit basis for each service requested and shall be assigned and restricted to that property for which the service was originally requested. This fee shall be set aside for future capacity. The Equity Buy-in Fee is set by the Board of Directors and is on file at the Levi Water Supply business office during business office hours.

Note: The Water Fee for oversized or Master Metered Accounts shall be based on the multiples of meter size equivalences. (See Chart in Subsection 16 below.)

8. **Franchise Fee Assessment:** Not required by Levi at this time.. Will implement when required.
9. **Groundwater District Production Fee.** Levi does not currently charge a Groundwater Production Fee. Levi Water does reserve the right to charge a fee with notice (to be determined per thousand gallons of water used by each Member). This fee would be collected to pay a portion of the annual fee charged to the Corporation by Southern Trinity Groundwater Conservation District based on the amount of water pumped from the Corporation's wells located within the boundaries of the District.
10. **Information Copy Fee:** A fee for the copying of any public information will be charged to the person requesting that information in compliance with the cost rules of the Texas Government Code Section 552.261 et.seq.
